

In the specification:

Please replace the 3<sup>rd</sup> full paragraph of page 5 with the following paragraph:

Figure 2 illustrates the transfection of cells with mouse serum albumin (MSA)-Myc fusion constructs and successful expression of the fusion protein, as well as binding of MSA and Myc antibodies to MSA-Myc fusion proteins depending on the location of the heterologous sequence in the MSA protein. The Myc epitope sequence in the figure is represented by SEQ ID NO: 2.

*The paragraphs presented above incorporate changes as indicated by the marked-up versions below.*

The 3<sup>rd</sup> full paragraph of page 5:

Figure 2 illustrates the transfection of cells with mouse serum albumin (MSA)-Myc fusion constructs and successful expression of the fusion protein, as well as binding of MSA and Myc antibodies to MSA-Myc fusion proteins depending on the location of the heterologous sequence in the MSA protein. The Myc epitope sequence in the figure is represented by SEQ ID NO: 2.
